A WORD FROM OUR CEO

Innovation in partnership

In a sector where reliability, sustainability, and performance are non-negotiable, we know that the right equipment can make all the difference. Waste operators today face growing environmental targets, tighter operating windows, and ever-increasing service demands. At RVS, we don't just supply vehicles - we deliver engineered solutions that meet the challenge head-on.

That's why we're proud to announce our exclusive UK distributorship of Coseco - a name synonymous with quality, innovation, and proven performance across 44 countries worldwide. From compact urban units to large-capacity split-body systems, every Coseco vehicle is designed with one thing in mind: making frontline operations smarter, safer, and more efficient.

This partnership gives UK operators direct access

to some of the most advanced refuse compaction technology on the market - fully customisable, expertly supported, and ready to perform.

With over a century of combined experience behind us, and a national service network ready to support, we're here to help you raise the bar - not just in what your fleet can do, but in what it can achieve.

Reliable. Adaptable. Built to last. That's the RVS and Coseco way.

ABOUT RVS

RVS is the UK's leading independent supplier of refuse collection vehicles and fleet solutions, trusted by local authorities and private sector operators alike.

As a family business, we bring a personal commitment to service, accountability, and long-term relationships. We simplify access to reliable, high-quality vehicles – helping you keep your operations running smoothly.

Backed by over 100 years of combined industry expertise and partnerships with the most reputable and innovative manufacturers in the waste sector, we've earned a reputation for delivering quality, value, and reliability.

Whether you need bespoke new or quality used vehicles, flexible hire options, expert refurbishments, electric conversions, or dependable service and maintenance, we offer end-to-end solutions tailored to your fleet's exact requirements.

THE COSECO ADVANTAGE

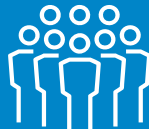

50 YEARS

Backed by 5 decades of design and manufacturing expertise

TRUSTED WORLDWIDE

Products in operation across 44 countries

FULL RANGE

From compact urban units to high-capacity compactors

ENGINEERED FOR RELIABILITY

Built to minimise downtime and maximise operational efficiency

SUSTAINABLY MADE

Environmentally conscious with ongoing impact assessment

COMPLIANCE ASSURANCE

ISO 14001 certified for environmental care systems

14001

WORKING WITH COSECO

A partnership defined by engineering excellence: Coseco combines five decades of manufacturing expertise with a full range of compactors built for modern waste operations. From food waste to split-body collection, every unit is designed for efficiency, durability, and low environmental impact.

At the core is a commitment to performance - delivering solutions that are proven in 44 countries and now available exclusively in the UK through RVS. Each model is fully customisable and supported locally, ensuring it fits your fleet and your operation.

With options from 3.5t to 30t, and compactors suited to every route type, Coseco offers a smart, scalable alternative to generic equipment. Backed by our nationwide service, responsive parts supply, and expert support, it's a smarter way to invest in long-term reliability.

K1 R

Food Waste Collection

The K1 R is purpose-built for the efficient and hygienic collection of food waste. Its compact design allows for easy manoeuvrability in narrow, congested urban environments.

Designed as a satellite unit, it seamlessly transfers waste to larger compactor units, making it a flexible solution for city-centre collection routes where space and accessibility are limited.

KEY FEATURES

Compact design for easy urban manoeuvrability

Efficient, hygienic food waste collection

Seamless waste transfer to larger units

GVW	3.5 – 8t
------------	----------

BODY VOLUME	4 - 8m ³
--------------------	---------------------

WARRANTY	3 Years
-----------------	---------

THE COMPLETE
FOOD WASTE SOLUTION

K1 RV

Food Waste Collection

The K1 RV expands on the K1 R by offering dual independent compartments - a rear and a side-loading tank - enabling the simultaneous collection of two separate waste streams.

The compact footprint ensures it navigates tight city streets effectively while maintaining hygienic, efficient collection and transfer capabilities.

KEY FEATURES

Dual independent compartments for two waste streams

Compact footprint for tight city environments

Flexible food and general waste handling

GVW	6.5 - 7.5t
------------	------------

BODY VOLUME	5.5m ³

THE COMPLETE ✓
FOOD WASTE SOLUTION

K3

Small Compactor

The K3 offers a robust, small-scale compactor solution designed for urban centres requiring higher capacity than smaller models. With a single-body design, it delivers reliable performance and durability while maintaining agility in tight spaces.

The K3's enhanced volume range supports more extensive collection routes without sacrificing manoeuvrability, making it ideal for busy city environments.

KEY FEATURES

Increased capacity for small urban routes

Durable single-body design

Ideal for tight city centre operations

GVW

7.5 - 15t

3 Years

THE COMPLETE ✓
SMALL COMPACTOR SOLUTION

K4

Medium Compactor

The K4 is a versatile medium-sized compactor that strikes a balance between capacity and manoeuvrability. It is designed for operators needing more volume for urban and suburban waste collection without compromising ease of navigation on narrower streets.

This model supports a wide range of collection routes and waste types, delivering efficient and dependable service.

KEY FEATURES

Balanced capacity and manoeuvrability

Suitable for urban and suburban routes

Reliable for varied waste types

GVW	7.5 - 14t
------------	-----------

BODY VOLUME	8 - 12m ³
--------------------	----------------------

WARRANTY	3 Years

THE **COMPLETE** ✓
MEDIUM COMPACTOR SOLUTION

K5

Medium Compactor

The K5 builds on the K4's strengths by offering increased capacity for more demanding urban and town centre collection routes. Its rugged construction ensures durability for heavier loads and longer distances.

The K5 delivers reliable performance and operational flexibility, helping reduce route frequency while maximising payload.

KEY FEATURES

Higher capacity for demanding routes

Robust build for heavier loads

Reduces route frequency, maximises payload

GVW	10 - 20t
------------	----------

BODY VOLUME	10 - 20m ³

THE COMPLETE ✓
MEDIUM COMPACTOR SOLUTION

K6

Large Compactor

Designed for high-volume urban waste collection and transfer operations, the K6 boasts a substantial capacity ideal for busy routes with demanding performance needs. Its large body volume supports fewer disposal stops, increasing operational efficiency.

The K6's durable build ensures consistent service in challenging conditions.

KEY FEATURES

Large volume for high-demand routes

Supports fewer disposal stops

Durable construction for tough conditions

GVW

18 - 40t

BODY VOLUME

18 - 36m³

WARRANTY

THE COMPLETE ✓
LARGE COMPACTOR SOLUTION

K3 SELECTIVE

Split Compactor

The K3 Selective introduces a split-body design, enabling simultaneous collection of two separate waste streams, such as recyclables and general waste, improving route efficiency and reducing operational costs.

Compact and manoeuvrable, it is ideal for urban routes where space is limited but dual-stream waste collection is required.

KEY FEATURES

Split body for simultaneous dual-stream collection

Compact and manoeuvrable for urban routes

Lowers operational costs and improves efficiency

GVW	7.5 - 15t
------------	-----------

BODY VOLUME	6 - 14m ³
--------------------	----------------------

WARRANTY	3 Years
-----------------	---------

K5 SELECTIVE

Split Compactor

The K5 Selective expands on the K3 Selective's design, offering larger capacity split compartments to accommodate more waste without sacrificing manoeuvrability.

Suitable for longer routes and heavier waste streams, it enhances dual-stream collection efficiency and reduces the need for multiple vehicles on complex routes.

KEY FEATURES

Larger split compartments for more waste

Suitable for longer, heavier routes

Enhances dual-stream collection efficiency

GVW	15 - 20t
------------	----------

BODY VOLUME	15 - 18m ³
--------------------	-----------------------

WARRANTY	3 Years

THE COMPLETE
SPLIT-BODY SOLUTION

K6 SELECTIVE

Split Compactor

The K6 Selective is the largest split-body compactor in the Cosco range, designed for large-scale dual-stream waste collection in demanding urban and transfer environments.

Its high capacity and robust design ensure durability and efficiency on heavy-use routes, helping reduce operational costs on the toughest schedules.

KEY FEATURES

Largest dual-stream capacity in the range

Robust for heavy urban and transfer use

Optimises route efficiency and reduces costs

GVW	26 - 30t
------------	----------

BODY VOLUME	22 - 24m ³
--------------------	-----------------------

WARRANTY	3 Years

RVS QUALITY STANDARD

At RVS, our solutions are designed to protect and enhance your investment. We're a business built on trust, integrity, and an unwavering commitment to our customers.

Backed by over 100 years of combined industry expertise, we take pride in the quality of our services - and in our ability to deliver consistently, time after time.

We promise:

- Proven, tried-and-tested solutions
- Expert, responsive customer service
- Flexible payment options tailored to your needs

Partner with us for peace of mind.

RVS ONGOING SUPPORT

At RVS, our dedicated aftersales support team is committed to delivering reliable, responsive service that keeps your fleet moving.

We offer:

- Specialist support from our experienced team
- Satellite depots located across the UK
- Field-Service Engineers operating nationally

Whenever you need us, we are situated to provide timely and efficient support - minimising downtime and maximising performance.
